When it comes to fine stereo systems.....

a Marantz is a Marantz is a Marantz.

That means that Marantz not only makes the finest most expensive stereo equipment in the world but also the finest least expensive stereo equipment in the world. Our \$1285 Marantz stereo component system for example includes the Marantz Model 120 stereophonic tuner featuring the exclusive Gyro-Touch tuning and built-in oscilloscope for \$395; the Model 3300 preamplifier/control center that offers you full control facilities at \$395; plus the Marantz Model 250, a 250 watt RMS power amplifier priced at \$495. Put them all together they spell Marantz— a total of \$1285 worth of the best stereo equipment available for the connoisseur.

\$1285

For the budget-minded music lover, Marantz also makes the finest, least expensive stereo equipment in the world. Marantz offers a component system that includes the Marantz Model 110 FM/AM stereophonic tuner featuring Gyro-Touch tuning for only \$159, and beautifully complemented by the Marantz Model 1030 stereo preamp-amplifier with 15 watts RMS per channel priced at only \$139. A great system for the budding stereo enthusiast and the best buy for the money in the audio world. **\$298**

Same name, same quality — regardless of price. That's Marantz' superior quality, inherent in the full line of components.

And to complete your system choose a Marantz Imperial speaker system. **marantz**

A THOUGHT FROM KEXL • • •

Walk quietly through the busy hum of men, remembering what tranquility there is in silence. With out relinquishing your ideals be compatible with all people. Speak the truth, listen, even the shallow and foolish have their story to tell. Avoid vanity, always there will be persons greater than yourself. Be yourself, do not falsify affection, remembering our opinion of people depends less upon what we see in them than upon that they make us see in ourselves. Make no little plans, they have no magic to stir men's blood, and probably themselves will not be realized. Aim high in hope and work, remember that a noble and logical diagram once recorded will never die. A dream can be short and sweet for the dreamer only, and wafted away on a little breeze, or it can be an adventure where curiosity beckons and inspires us to find out what is beyond our vision. Every month is full of blessings if our hearts and hands are open to receive them.
